Yes, of course. On Mon, I am available 11am-3pm. I can also be available before 11am, if that's the only time you can do.

Can Bill and I talk to you on Monday?

>>> "Yeh, Alice" <Yeh.Alice@epa.gov> 8/9/2013 9:56 AM >>>

As previously discussed, attached is the draft field mod to implement the following changes to the Lower Passaic River CSO-SWO sampling program:

- Phase I will sample Clay Street CSO twice (due to access issues at Ivy Street).
- Lowers rainfall intensity threshold for mobilization from 0.05 in/hr to 0.03 in/hr.
- Removes oxidation-reduction potential, DO & pH from required measurements.
- Adds blender & associated equipment to homogenize fine sediments and "paper-like" material in centrifuge to produce particulate phase (with associated decon procedures).

Please send me comments by Wed 8/14.
